**November 2014**

**Consumer  
Technology  
Association**

## NOTICE

Consumer Technology Association (CTA)<sup>TM</sup> Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of the Consumer Technology Association from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than Consumer Technology Association members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by the Consumer Technology Association in accordance with the American National Standards Institute (ANSI) patent policy. By such action, the Consumer Technology Association does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

This document does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this document to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

This document is copyrighted by the Consumer Technology Association and may not be reproduced, in whole or part, without written permission. Federal copyright law prohibits unauthorized reproduction of this document by any means. Organizations may obtain permission to reproduce a limited number of copies by entering into a license agreement. Requests to reproduce text, data, charts, figures or other material should be made to the Consumer Technology Association.

## **FOREWORD**

This standard was revised under the auspices of the Consumer Electronics Association (CEA) R4 Video Systems Committee and replaces CEA-2028-A, *Color Codes for Outdoor TV Receiving Antennas*, which replaced CEA-CEB6C, *TV Receiving Antenna Manufacturers Guide to Categorizing Antennas for Use with the CEA TV Antenna Selector Map Program*.

## Color Codes for Outdoor TV Receiving Antennas

### 1 Scope

This standard defines color codes to be associated with minimum performance parameters of outdoor television (TV) receiving antennas. When used in conjunction with the CEA TV antenna selector program at [www.AntennaWeb.org](http://www.AntennaWeb.org), these color codes can help both consumers and professional installers select appropriate outdoor TV antennas for their particular reception environments.

This standard applies only to devices that can be connected to a transmission line for purposes of converting an electromagnetic wave propagating in free space to a radiofrequency (RF) voltage. Couplers and distribution components that are not permanently integrated with an antenna are not covered by this standard.

#### 2.1 Normative References

The following standards contain provisions that, through reference in this text, constitute normative provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of the standards listed here.

##### 2.1.1 Normative Reference List

- CEA-774-C, TV Receiving Antenna Performance Presentation and Measurement, month, 2014.

##### 2.1.2 Normative Reference Acquisition
