Technology
Association**

NOTICE

Consumer Technology Association (CTA)TM Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of the Consumer Technology Association from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than Consumer Technology Association members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by the Consumer Technology Association in accordance with the American National Standards Institute (ANSI) patent policy. By such action, the Consumer Technology Association does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

This document does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this document to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

This document is copyrighted by the Consumer Technology Association (CTA)TM and may not be reproduced, in whole or part, without written permission. Federal copyright law prohibits unauthorized reproduction of this document by any means. Organizations may obtain permission to reproduce a limited number of copies by entering into a license agreement. Requests to reproduce text, data, charts, figures or other material should be made to the Consumer Technology Association (CTA)TM.

NTSC/ATSC Loudness Matching

1 Scope

This bulletin provides guidance on maintaining uniform audio program loudness between various combinations of analog sources, NTSC services, and digitally delivered terrestrial DTV, satellite and / or cable services while preserving the dynamic range delivery capability of the DTV service.

This bulletin addresses the source levels, gain structure and output levels of any consumer digital television broadcast receiver, set top box, integrated AV receiver or similar device that is capable of receiving any or all of the above services.

2 Informative References

2.1 Informative References List

ATSC A/52B Digital Audio Compression (AC-3, E-AC-3) Standard

ATSC A/85 – Techniques for Establishing and Maintaining Audio Loudness for Digital Television

IEC 61938, Audio, video and audiovisual systems- Interconnections and matching values- Preferred matching values of analogue signals

ITU-R BS.1770, Algorithms to Measure Programme Loudness & True Peak Audio Level

IEC 61672-1, Electroacoustics - Sound level meters - Part 1: Specifications AND IEC 61672-2, Electroacoustics - Sound level meters - Part 2: Pattern evaluation tests

ISO 532-1975 Acoustics – Method for calculating loudness level

FCC OET Bulletin No. 60 Multichannel Television Sound Transmission and Audio Processing requirements for the BTSC system. Revision A

2.2 Informative References Acquisition

ATSC Standards:

- Advanced Television Systems Committee (ATSC), 1750 K Street N.W., Suite 1200, Washington, DC 20006; Phone 202-872-9160; Fax 202-872-9161; Internet <http://www.atsc.org/stan&rps.html>

IEC/ISO Standards:

- Global Engineering Documents, World Headquarters, 15 Inverness Way East, Englewood, CO USA 80112-5776; Phone 800-854-7179; Fax 303-397-2740; Internet <http://global.ihs.com>; Email global@ihs.com
IEC Central Office, 3, rue de Varembe, PO Box 131, CH-1211 Geneva 20, Switzerland; Phone +41 22 919 02 11; Fax +41 22 919 03 00; Internet <http://www.iec.ch>; Email pubinfor@iec.ch

FCC Bulletins:

- Federal Communications Commission, 445 12th Street, SW, Washington, DC 20554

ITU Documents:

- ITU documents are available through the web at <http://www.itu.int/opb/>

3 Glossary

| | |
|-------|---|
| ADC | Analog to digital converter. |
| compr | A metadata control word contained in AC-3 bitstreams that introduces limiting when the decoder is in the RF operating mode, and downmix overload protection in all modes. |
| DAC | Digital to analog converter. |
| dBFM | |
